Healthcare Finance: Definition, Function & Specialization ...

Health care is paid for by government programs (such as Medicare and Medicaid), private health insurance plans (usually through employers), and the person's own funds (out-of-pocket). In the United States, health care is technologically advanced but expensive. Health care costs were about \$3.6 trillion dollars in 2018 (1).

Overview of Health Care Financing - Fundamentals - MSD ...

Financing health care has evolved from personal payment at the time of service delivery to financing through health insurance (prepayment) by the employer and employee at the workplace. This has progressed in most industrialized countries towards governmental financing through social security or general taxation, supplemented by private and non-governmental organizations (NGOs) (Table 11.3), and personal out-of-pocket expenditures.

Health Care Financing - an overview | ScienceDirect Topics

Although this may seem small in proportion to the national commitments of rich countries, for low-income countries at the receiving end of the transfers, these resources are substantial; in Sub-Saharan Africa they finance more than 25% of total expenditure on healthcare. 6 This implies that development assistance for health, if suitably targeted and managed, has the potential of drastically ...
